### WeighToolBox

'WeighToolBox' for Tractors with Front Linkage and additional fitting to tractor base weight/tombstone and short version coupling on front linkage to hold weight closer to tractor in a similar position to mounting on tombstone.

**Storage for tools, heavy tooling, spare parts, heavy wearing parts, keeping the tractor cab floor clear !**

- Constructed from 25mm 10, and 4 mm plate, fully welded and power coated for a durable finish.
- The WeighToolBox weighs 370KG. The centre storage box is 800mm x 500mm x 500mm plus weight carrying wings 400mm each side.
- .Up to 20 x 45/50KG John Deere type wafer weights (10 each side of the box) Circa 1000kg
- NB Max weight on JD type tombstone recommended, 900-1250 kg
- If more weight is required, a base weight can be mounted to the front of the box. ( eg. 20 JD wafer weights + the weight of the box, plus base weight = 1360 kg plus 110 kg = 1470 kg) or greater weight if mounted on front linkage.
- Hinged, weatherproof lockable lid with gas struts.
- Optional spacer blocks available for mounting additional base weight/tombstone to front of box.
- Optional bolt on front of box towing/drawbar eye.
- Optional concrete filled weight pods @ 300KG per side or additional storage pods as shown below
- Optional side lights and front mounted work lights

**Basic Price £1500**
